

IP VOICE TERMINATION

DEPLOY AND OPTIMIZE IP-BASED VOICE SOLUTIONS USING THE COMCAST SIP VOICE NETWORK

Unlock the quality, scale, and buying power of one of the largest and most advanced voice networks in the world. Our IP voice services are trusted by some of the most prominent ILECs, CLECs, MVPDs and OTT carriers for reliable, cost-effective delivery of their voice traffic. Improve call quality, expand your voice footprint globally, and reduce costs for voice services.

COMCAST'S VOICE NETWORK AT A GLANCE

- Direct connections to most networks
- Serves more than 12 million voice subscribers
- Delivers over 30 billion minutes of voice traffic annually
- Trusted by 80+ national and international carriers
- Built on a converged architecture supporting voice, data and video
- Leverages one of the largest N x 100GB fiber-optic backbones with multiple terabits of capacity

DAILY PEAK TRAFFIC
FLOWS OF OVER **1**
TBPS

30 BILLION
MINUTES OF VOICE TRAFFIC ANNUALLY

TRUSTED BY
80+
NATIONAL AND
INTERNATIONAL CARRIERS

BUILT ON COMCAST'S ROBUST INFRASTRUCTURE

- **Advanced network** — With 40,000 route miles, the Comcast network is one of the largest, most advanced fiber networks in North America.
- **Consistent call quality** — With direct connections to a vast number of networks, you can trust our expansive fiber-optic footprint to minimize hops and deliver a first-rate calling experience.
- **Personalized service** — Even though our infrastructure is at scale, our one-to-one service is customized to meet the needs of your business.

ABOUT COMCAST TECHNOLOGY SOLUTIONS

Comcast Technology Solutions, a division of Comcast Cable, brings innovations from Comcast to the advertiser, content provider, global operator, and technology industries — providing solutions to our collective challenges and helping to forge a shared vision for the future. Built on Comcast's know-how, proven facilities, platforms, and infrastructure, Comcast Technology Solutions offers more than 20 years of real-world broadcast and digital experience. We deliver technology beyond expectations to help customers develop new business models and transform the customer experience.
